# At Home Livestreaming Kits

## Solutions during COVID-19

## Protect your personal brand by adding value to your livestream.

Many venues are on lock down due to the pandemic, leaving celebrities, CEOs, politicians and professionals subject to harsh lighting, poor-quality audio and lackluster web cams. We've developed many solutions to enable presenters to professionally stream based on their digital event needs. Our plug-and-play solutions include varying degrees of technical support during project planning, as well as during install, testing and streaming.

### Entry Level - *$1,000/wk*

Designed to address our most commonly heard complaint - poor audio quality, the Basic kit enables presenters to be clearly heard and understood.

**Includes:**

- Laptop (PC or Mac) preloaded with popular streaming software and necessary drivers
- Lapel Microphone
- USB to Microphone Adapter
