

GREENFORD Design & Operations Hub

About the Site

PRG UK Design & Operations hub is a state-of-the-art facility located in Greenford, showcasing three Pre-viz design suites aimed to provide industry professionals a range of resources to assist in the creative design & technical planning.

The installation features industry leading lighting consoles, and dedicated platforms, running both WYSIWIG and MA3D software and full HD monitors. Created for our customers in mind, the self-contained suites offer relaxed, informal surroundings, making them ideal for client meetings or presentations. The site also benefits from direct access to a warehouse of lighting inventory, suitable for equipment reference, and product demonstrations.

Situated on the Greenford Park, in Unit 21 Ockham Drive Industrial Estate our site has excellent access onto the Western Avenue (A40) providing direct links to both central London and the national motorway network. It's only a few minutes walk to Greenford Underground station.
