

SMALL PPU

PORTABLE PRODUCTION UNITS

Our compact but powerful SD/HD portable production unit is supplied in two small, wheeled flight cases and contains everything you need to produce a high definition record or IMAG presentation.

Based on the Panasonic AV-HS400 desk, our small 4 camera SD/HD PPU allows for up to 8 inputs.

With the ability to connect two computer graphics sources without the need for complicated external scalars, this system is ideal for small corporate shows or tours where space and time are limited.
