

PIXLED FX-11

INDOOR MODULAR

Pixled FX-11 is a medium resolution, high brightness, lightweight modular LED product. It is an ideal solution for shows in venues with lower rigging weight limits. Perfect for large scale projects due to its weight and technical specifications (see below), Pixled FX-11's compact frame enables efficient use of truck space in transit.

The semi transparent construction of Pixled FX-11 allows for fanless cooling, and therefore makes this a silent product. This lack of noise makes Pixled FX-11 an ideal LED for use at meetings, corporate events, in the theatre, and in other locations where noise is a consideration.

Technical details

Pixel/Effective Pitch	11.25 mm
Resolution	40 x 40
Weight per tile	4.6 kg/tile
Weight per m2	22.72 kg/m2
Module size - mm	450 x 450 x 80
Module size - inch	17.72 x 17.72 x 3.15
Brightness	5000 Nit (after calibration)
Viewing Angle	145° H x 145° V
Power consumption max	260 W/tile
Transparency %	36
IP Rating	IP 54
Usage	Indoor
Data Connection	BNC
Processing	Basic Tech
Refresh Rate	300 Hz
Input frequency	50-60 Hz
Input signal	DVI Up to 1920 x 1080
Build time
