

Electronic News Gathering Services

Solutions for News Broadcasters During COVID-19

Many studios are on lockdown due to the COVID-19 pandemic, leaving reporters and crews in need of camera and broadcasting equipment. PRG has the resources to support Electronic News Gathering (ENG) with gear from depots in all major cities across the country.

With unmatched inventory and expertise, PRG is able to provide the type of fast, adaptive solutions that news broadcasters require. Our capabilities include:

- 4k and HD ENG cameras and lenses – cost effective options to meet your smaller productions needs
- LED Lite Panels – battery operated options available
- Small Field Monitors – HDMI & HD-SDI
- RF Audio and Video equipment – stick mics, lavalier mics, IFB's and wireless video
- Mobile studios that can be built off-site – our modular flypacks can be built into pods and trailers for social distancing
- All cabling and power distribution
- 360° solutions available, spanning all production disciplines, with partnerships in the broadcast space to augment our own capabilities
