

# Face Shields | COVID-19

As the leading provider of production services in the live event space, PRG provides a unique set of capabilities of value to government, hospitals, NGO's and others at the forefront of the COVID-19 emergency.

We are manufacturing Face Shields for the NYC medical community based on the following Open Source design seen here: <https://open-face-ppe.now.sh/>

The face shields are tested and validated as noted in the above document and the deluxe face shield has been approved by NYC Department of Health.

**Minimum Order** of 15,000 required, unless multiple smaller quantity batches can be produced together.

**Pricing** varies as material supply changes, please contact us for details.

## Features

- Design:**
- Utilizes a .010”-.020” thick face shield and forehead piece made from
  - Polycarbonate or PET\*
  - Band is a 3/8" elastic and is fully adjustable for one-size-fits-all
  - Foam headband available
- Logistics:**
- Manufacturing process follows all mandated ‘distancing’ requirements
  - Assembly personnel wear PPE to ensure a safe work environment and deliverable product
  - All units will be washed down—prior to bagging—with an alcohol based cleaner
  - Bags trackable through a unique serial number

\*Other materials are currently being vetted to help answer the supply shortages of the Polycarbonate & PET, but it is our commitment to ensure that all materials chosen to be used in our design meet medical guidelines.

Deluxe Face Shield
