

LIVESTREAMING

From PRG Digital Services

PRG livestreaming solutions deliver your meeting content to anyone with a screen anywhere on the globe. We apply unsurpassed inventory and deep expertise to bring you trusted, tested service, featuring:

- **Broad applicability.** Suitable for meetings, conferences, online events, executive communications, town halls, training and more
- **Content versatility.** Accommodates any type of content including presentations, video and panel discussions. Remote audience can see both speakers and their on-screen content
- **Secure access.** Custom registration and single-sign on protection
- **Platform agnosticism.** Remote participants can join on any device or screen
- **Global footprint.** With 72 locations on 6 continents, we can stream from or to any location with multiple points of content origination and distribution to nearly limitless screens for viewing
- **Customization.** Player fully customizable to reflect your branding, content and other messaging
- **Interactivity.** Ability to add features like live chats and polling. Text based question module allows remote attendees to submit questions during Q & A
- **User-controlled experience.** Jump into the meeting real-time or on-demand; rewind and playback flexibility

Livestreaming Packages

Customized solutions are also available.

Camera + Content

The most immersive experience, including both camera video of your presenters plus related on-screen content

Content and Audio

Stream your audio and on-screen content

Audio

Stream conference audio as a live podcast and record for on-demand listening

Social Media

Streams to social media channels, up to five social accounts at a time. Available in conjunction with private hosting or as a standalone offering
