Models 003 - 006

Content Creator: PRG/DHA/Vari*Lite

File Resolution: Various

Codec: SVG

Model folders 003, 004, 005, and 006 are not shown in this document. Their content is visually identical to the content in Texture folders 249, 250, 251, and 252 respectively.

However, the content in these Model folders is rendered in the SVG format so the files can be used as digital gobos.
