

SHALLOWDECK™ PLATFORMS

SPECIFICATION SHEET

LOW-PROFILE

SECURE ALIGNMENT SYSTEM

CUSTOM SIZES AVAILABLE

VARIOUS FINISH SURFACES

PRG's ShallowDeck™ staging platforms are the premier solution for low-profile theatrical decking needs. From Broadway to theatrical tours and everywhere in between, we know that every production is different. That core principle is at the heart of the ShallowDeck™ system.

Available in ready-to-ship stock sizes, PRG can also quickly fabricate custom sizes to meet your production's requirements. Each platform secures via coffin locks and a set of robust alignment features. The platforms quickly and securely lock together in the same place, every time.

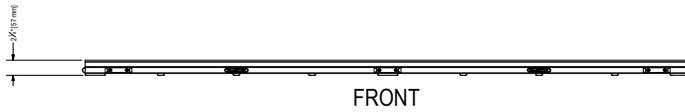

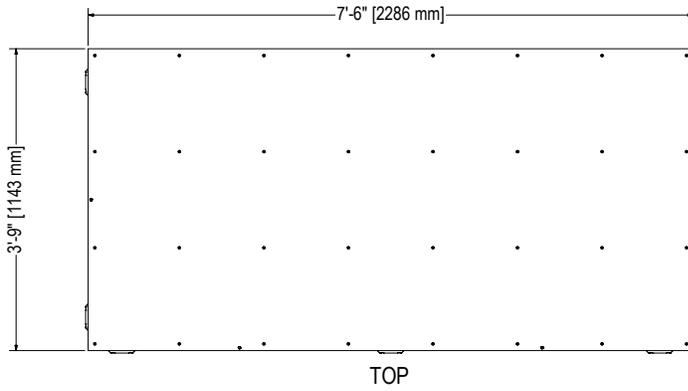

The plywood lids are high quality furniture grade birch with several surface finish options available. EPG is the most common, but we offer bare plywood for customer supplied finish materials, Marley laminated plywood, smooth-finish (no top-screws) options, and custom materials as per client specifications.

We've ensured the ShallowDeck™ components are user-servicable, with replacement items ready to ship. This ensures minimal downtime no matter what the road throws at you.

SHALLOWDECK™ PLATFORMS

SPECIFICATION SHEET

Shallow Deck 45 X 90 Shown. Height TYP across platforms.

Name	Part Number	Dimensions	Weight	Weight (EPG Removed)
