

## BARCO FLX-24

### CREATIVE LED

BARCO FLX-24 takes creative LED to a completely new level with the introduction of transformable LED. With this brand new concept designers are no longer limited to traditional LED displays but can create any shape they want.

FLX is a unique freeform LED concept that will amaze spectators all over the world. First introduced on U2's spectacular 360° tour.

#### Features

- Individual LED pixels for creative use.
- FLX-24 pixels can be built into a variety of structures and shapes.
- Creative LED product which has been used on TV shows including the Billboard Latin Music Awards, the moving screen on U2's 360° tour, and to create snowflake shapes for Snow Patrol's tour.
- Barco FLX-24 pixels are limited only by the imagination of the designer.
- Can be used both indoors and outdoors.
